"When we trade, your account automatically copies every operation"

- ✓ Your money is in YOUR account — we never touch it
- ✓ You can pause or stop copying at any time
- ✓ Withdraw your capital whenever you want

What is MetaTrader 5 (MT5)?

MT5 is the app where you can see your trades in real time.

It's like "online banking" but for trading. You will use it to:

- See operations that are automatically copied
- Check your balance and earnings
- It's FREE and available for mobile and PC

How it works:

1. We analyze the market with artificial intelligence
2. Our bot detects opportunities and opens trades
3. Your account copies each operation automatically
4. When we close with profit, you also win
5. You only pay commission (15%) if there's profit
